Consent for Treatment		
Microneedling and Facial Mesotherapy are treatments that involve multiple injections into the mesoderm, the layer of fat and connective tissue just millimeters under the skin. The agents injected will vary from time to time but generally include nutrients such as vitamins, hyaluronic acid and other amino acids. It is very important to inform our practitioners of any disease/illness you currently have or have had in the past, current medications and if you are currently pregnant . Also inform us of any allergies or suspected allergies.		
Possible complications of all Facial Treatments are minor bruising and bleeding at acupuncture and injection sites, dizziness, headaches and possible fainting from the sight of blood. Although natural and organic facial products are used as a cleanser, toner and moisturizer during the treatment, there may be a slight chance for sensitivities and reactions to these products.		
You should not expect our Practitioners to be able to anticipate and explain all risks and complications of the treatment and you are encouraged to discuss any questions and/or concerns with her prior to beginning the treatment. Side effects that can occur as a result of all Facial Treatments can include itchiness, swelling, redness, lumps, bumps, nodule formation, bruising, discoloration, worsending of pigmentation, scarring, blisters or ulceration, numbness, infection, dizziness, nausea, and possible allergic reaction to the substances used.		
By signing this consent form you agree that you understand that treatment results are variable for each individual and cannot be guaranteed . Treatment plans including duration and frequency of treatments are guidelines only and are subject to change according to individual progress. You understand that multiple treatment sessions are required. You acknowledge that all Facial Treatments provided at Essence Wellness Clinic, with its anti-aging role in increasing circulation and metabolism for the face, may not resolve any of your current facial conditions (such as wrinkles, bags or double chins), may cause a worsening in skin and will not prevent any future facial conditions which you may acquire as a result of sun damage or natural aging. You understand the fee schedule and agree to pay for all costs incurred.		
Patients that should not undergo this procedure include: patients with a bleeding disorder, patients who are on blood thinners, women who are pregnant and patients with active skin infections.		
By signing this consent form you agree that you have provided correct information about your health, you have read and understand all of the above, including the potential risks and side effects of treatment, and thereby authorize your informed consent to your entire course of all Facial Treatments by our practitioners and release them and Essence Wellness Clinic from any liability associated with their treatment.
